### PART II: REQUESTOR'S POSITION SUMMARY

**Requestor's Position Summary:** "This is considered a 'trauma' admit and is exempt from the per diem rates. We are not with the understanding that TWCC intended for the reimbursement on trauma claims to be *less than* the applicable fee schedule. According to information we have received from TWCC regarding a medical billing database for services in 2004, trauma claims received and average payment that was 48.2% of charges. Because this information was acquired from TWCC from a Medical Dispute filed, we are considering this to be a 'fair and reasonable' calculation for trauma reimbursement."

**Amount in Dispute:** \$294.60

### PART III: RESPONDENT'S POSITION SUMMARY

**Respondent's Position Summary:** The respondent did not submit a response to this request for medical fee dispute resolution.

### PART IV: SUMMARY OF FINDINGS

Date(s) of Service	Denial Code(s)	Disputed Service	Amount in Dispute	Amount Due

<b>Total Due:</b>				<b>\$0.00</b>

### PART V: REVIEW OF SUMMARY, METHODOLOGY AND EXPLANATION

Texas Labor Code § 413.011(a-d), titled *Reimbursement Policies and Guidelines*, and Division rule at 28 Texas Administrative Code §134.1, titled *Medical Reimbursement*, effective May 2, 2006 set out the reimbursement guidelines.

This request for medical fee dispute resolution was received by the Division on August 7, 2007.

- For the services involved in this dispute, the respondent reduced or denied payment with reason codes:
  - CAC-W10-No maximum allowable defined by fee guideline. Reimbursement made based on insurance carrier fair and reasonable reimbursement methodology.
  - CAC-97-Payment is included in the allowance for another service/procedure.
  - 217-The value of this procedure is included in the value of another procedure performed on this date.
  - 426-Reimbursed to fair and reasonable.
  - CAC-45-Charges exceed your contracted/legislated fee arrangement.
  - 724-No additional payment after reconsideration. Network contract applied by Texas Star/Concentra Network.
- The Respondent raised the issue of a PPO contract; however, a review of the submitted EOBs does not support a PPO reduction was taken. Neither party submitted a copy of a contractual agreement to support this EOB denial; therefore, the disputed services will be reviewed in accordance with applicable Division rules and fee guidelines.

3. This dispute relates to inpatient surgical services provided in a hospital setting with reimbursement subject to the provisions of Division rule at 28 TAC §134.401(c)(5)(A), effective August 1, 1997, 22 TexReg 6264, which requires that when "Trauma (ICD-9 codes 800.0-959.50)" diagnosis codes are listed as the primary diagnosis, reimbursement for the entire admission shall be at a fair and reasonable rate. Review of box 67 on the hospital bill finds that the principle diagnosis code is listed as 808.2. The Division therefore determines that this inpatient admission shall be reimbursed at a fair and reasonable rate pursuant to Division rule at 28 Texas Administrative Code §134.1 and Texas Labor Code §413.011(d).
4. Division rule at 28 TAC §134.1, effective May 2, 2006, 31 TexReg 3561, requires that, in the absence of an applicable fee guideline, reimbursement for health care not provided through a workers' compensation health care network shall be made in accordance with subsection §134.1(d) which states that "Fair and reasonable reimbursement: (1) is consistent with the criteria of Labor Code §413.011; (2) ensures that similar procedures provided in similar circumstances receive similar reimbursement; and (3) is based on nationally recognized published studies, published Division medical dispute decisions, and values assigned for services involving similar work and resource commitments, if available."
5. Texas Labor Code §413.011(d) requires that fee guidelines must be fair and reasonable and designed to ensure the quality of medical care and to achieve effective medical cost control. The guidelines may not provide for payment of a fee in excess of the fee charged for similar treatment of an injured individual of an equivalent standard of living and paid by that individual or by someone acting on that individual's behalf. It further requires that the Division consider the increased security of payment afforded by the Act in establishing the fee guidelines.
6. Division rule at 28 TAC §133.307(c)(2)(A), effective December 31, 2006, 31 TexReg 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include "a copy of all medical bill(s)... as originally submitted to the carrier and a copy of all medical bill(s) submitted to the carrier for reconsideration..." Review of the documentation submitted by the requestor finds that the requestor has not provided a copy of all medical bill(s) as submitted to the carrier for reconsideration. The Division concludes that the requestor has not met the requirements of Division rule at 28 TAC §133.307(c)(2)(A).
7. Division rule at 28 TAC §133.307(c)(2)(C), effective December 31, 2006, 31 TexReg 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include "the form DWC-60 table listing the specific disputed health care and charges in the form and manner prescribed by the Division." Review of the documentation submitted by the requestor finds that the requestor has indicated that the amount billed for the services in dispute is the total for all services charged on the hospital bill; however the documentation does not support that all of the services in dispute were rendered on the date of service listed on the requestor's *Table of Disputed Services*. The requestor listed the disputed date of service as 1/12/07 on the *Table*; the total charges on the bill were for date of service 1/12/07 through 1/16/07. Therefore, the requestor has failed to complete the required sections of the request in the form, format, and manner prescribed by the Division sufficient to meet the requirements of 28 TAC §133.307(c)(2)(C).
8. Division rule at 28 TAC §133.307(c)(2)(F)(iv), effective December 31, 2006, 31 TexReg 10314, applicable to disputes filed on or after January 15, 2007, requires that the request shall include a position statement of the disputed issue(s) that shall include "how the submitted documentation supports the requestor position for each disputed fee issue." Review of the requestor's documentation finds that the requestor has not discussed how the submitted documentation supports the requestor position for each disputed fee issue. The Division concludes that the requestor has not met the requirements of Division rule at 28 TAC §133.307(c)(2)(F)(iv).
9. Division rule at 28 TAC §133.307(c)(2)(G), effective December 31, 2006, 31 TexReg 10314, applicable to disputes filed on or after January 15, 2007, requires the requestor to provide "documentation that discusses, demonstrates, and justifies that the amount being sought is a fair and reasonable rate of reimbursement in accordance with §134.1 of this title (relating to Medical Reimbursement) when the dispute involves health care for which the Division has not established a maximum allowable reimbursement (MAR), as applicable." Review of the submitted documentation finds that:
  - The requestor states in the position summary that "This is considered a 'trauma' admit and is exempt from the per diem rates. We are not with the understanding that TWCC intended for the reimbursement on trauma claims to be *less than* the applicable fee schedule. According to information we have received from TWCC regarding a medical billing database for services in 2004, trauma claims received and average payment that was 48.2% of charges. Because this information was acquired from TWCC from a Medical Dispute filed, we are considering this to be a 'fair and reasonable' calculation for trauma reimbursement."
  - The requestor did not provide a copy of or citation to any Division Medical Dispute decision.
  - The requestor did not provide documentation of information from TWCC regarding a medical billing database for services in 2004, supporting that trauma claims received an average payment that was 48.2% of charges.
  - The requestor does not discuss or explain how payment of 48.2% of charges would result in a fair and reasonable reimbursement.
  - The requestor did not submit documentation to support that the payment amount being sought is a fair and reasonable rate of reimbursement.

- The Division has previously found that a reimbursement methodology based upon payment of a hospital's billed charges, or a percentage of billed charges, does not produce an acceptable payment amount. This methodology was considered and rejected by the Division in the *Acute Care Inpatient Hospital Fee Guideline* adoption preamble which states at 22 Texas Register 6276 (July 4, 1997) that:

"A discount from billed charges was another method of reimbursement which was considered. Again, this method was found unacceptable because it leaves the ultimate reimbursement in the control of the hospital, thus defeating the statutory objective of effective cost control and the statutory standard not to pay more than for similar treatment of an injured individual of an equivalent standard of living. It also provides no incentive to contain medical costs, would be administratively burdensome for the Commission and system participants, and would require additional Commission resources."

- The requestor did not submit nationally recognized published studies, published Division medical dispute decisions, or documentation of values assigned for services involving similar work and resource commitments to support the requested reimbursement.
- The requestor did not discuss or explain how payment of the requested amount would satisfy the requirements of Division rule at 28 TAC §134.1.

The request for additional reimbursement is not supported. Thorough review of the documentation submitted by the requestor finds that the requestor has not demonstrated or justified that payment of the amount sought would be a fair and reasonable rate of reimbursement for the services in dispute. Additional payment cannot be recommended.

10. The Division would like to emphasize that individual medical fee dispute outcomes rely upon the evidence presented by the requestor and respondent during dispute resolution, and the thorough review and consideration of that evidence. After thorough review and consideration of all the evidence presented by the parties to this dispute, it is determined that the submitted documentation does not support the reimbursement amount sought by the requestor. The Division concludes that this dispute was not filed in the form and manner prescribed under Division rules at 28 Texas Administrative Code §133.307(c)(2)(A), §133.307(c)(2)(C), §133.307(c)(2)(F)(iv) and §133.307(c)(2)(G). The Division further concludes that the requestor failed to support its position that additional reimbursement is due. As a result, the amount ordered is \$0.00.
